In reflecting the needs of businesses that demand a low carbon economy by improving the environmental credentials of products that are used every day... Elite announces that all of their single-to-eight door lockers now contain **Abbysteel™** Sustainably Sourced Steel. A unique raw material* that shows a significantly reduced carbon footprint of the products that contain it and the businesses that use it.

Abbysteel™ is the world's first green brand of sustainably sourced steel that has been created to showcase a prime steel by-product that is sourced from a range of UK industries. Abbysteel™ combines the uniqueness of a trademarked raw material and that of a sustainable material resource for businesses that would like to show a reduced impact on the environment by reusing materials.
